Work Experience

Web Developer 06/2023 to 09/2023

PathFinders Gospel Fredericton NB

As a WordPress Web Developer at PathFinders Gospel, I create, maintain, and optimize WordPress-based webpages that deliver exceptional user experiences and align with our client's needs. Leveraging my proficiency in HTML, CSS, and JavaScript., I collaborate closely with design and content teams to translate concepts intovisually appealing and responsive websites.

Technology Instructor 01/2016 to 06/2022

Colegio Diocesano Santa Luzia

Mossoro, RN, Brazil

- Educated and instructed children and young learners in the fundamentals of robotics programming using Legoand pseudo-language.
- Demonstrated proficiency in utilizing instructional technology and various tools to enhance student engagement and understanding, including audiovisual materials, interactive whiteboards, and simulation software.
- Trained and mentored other employees on various technology subjects, including software applications, hardwaremaintenance, and troubleshooting procedures.
- Facilitated regular meetings with parents to discuss student progress, strengths, and areas for improvement,establishing a positive and collaborative relationship between the school and families.
